05

01→ Techco DNA

Transforming to a techco involves bold moves that fundamentally change the DNA of an organization. We explore how the core DNA of a telco can be changed to achieve this.

02→ Cloud Native Software

Cloud native IT is not simply about where IT systems are, but how they can best be utilized. We show you how to go beyond existing cloud native IT architecture to deliver 'plug-n-play' IT.

03→ Future Networks

Growth can't be achieved without robust, secure, high-performance networks. We explore how to expose network capabilities to build an open automated network of the future.

04→ AI at Scale

Vast amounts of data are essential to best manage the increasing demand for AIOps, and enhance CX. We'll equip you with the guidance you need to make best use of data and AI to achieve these goals.

05→ Platforms & Partners

It is becoming increasingly apparent that flying solo in the digital marketplace is not an option. We shed light on how to be platform ready and make partner ecosystems work.

Your Community:

19-21 Sept 2023
Copenhagen

We connect

Trade in Zoom for energetic real conversations. Every element of the event is designed to maximize meaningful connections between thousands of participants. Learn as much from the person sitting next to you as the person on stage.

We inspire

Explore new solutions from leading solution providers, see first-hand innovation from leading startups and new tech and find out how Catalyst co-created solutions are finding new ways of solving industry problems.

We learn

Hear from the trailblazers carving a path for the future. Learn and discuss latest tech, trends, case studies and business models with those making it happen.

We play

Let's enjoy being together - with a variety of activities designed to be fun and help you connect. From evening entertainment to running clubs, from walking tours of Copenhagen to our resident DJ. This is not all work and no play.

We collaborate

Real-life collaboration that is simply impossible virtually with expert led masterclasses, hands-on workshop spotlights and lunch briefings.

Digital Experience:

19-21 Sept 2023
Copenhagen

Going beyond the physical

Our headliners stage is a purpose built intimate TV studio, with an exclusive, invitation-only in-person audience and live streamed online audience. This is a real hybrid experience.

Remote knowledge sharing with selected sessions available on-demand.

Daily wraps and analysis throughout the day.

Headliner sessions live streamed to the screen network across the entire venue.

Catalyst co-created solutions virtual spaces to inspire you with the latest innovation.

Daily podcast released each morning.

Event studio for recording premium digital content for longtail campaign.

What our attendees say:

“Brilliant opportunity for the industry to come together after unprecedented global pandemic.

Excellent speakers and fantastic opportunity to networks with colleagues and friends and develop growth opportunities back into the business.”

Kaljit Singh Kandola
BT

“One of the few global events which covers both business & technological digitalization and transformation in the context of an incredible speed.”

Frank Schrader
Deutsche Telekom

“DTW 2022 is the topmost event for decision makers who want to solve the problems of digital transformation and advancing innovation in the industry. The event is the essential forum to gain the most important insights on how to enable telecommunication organizations to transform into the tech-co of the future.”

Ron Westfall
Futurum Research

“One the best events I’ve attended in the last 10 years. It’s not every event that you get CIOs walking onto your exhibition stand asking to find out more about your products.”

Martin Morgan
Qvantel

“One of the best decisions we took this year was to apply to the “Next20” program. DTW was an inspiring and insightful event, and we came home with a packed luggage full of new ideas and potential partnerships”

João Mestre
COOPTELCO

“DTW was a great show, with engaging content and the right people to drive the industry forward. Can’t wait for DTW23!”

Chris Silberberg
IDC
