Exec²

Multiplying impact through peer connections.

We are building a free curated peer-to-peer event experience, exclusively for CxO's, where you can discuss the most current topics with your peers.

Receive a complimentary 'all access' pass and engage with fellow CxO's by taking part in **Exec²** , where you can meet and network with your peers, listen to the keynotes, Catalyst demos, attend the Excellence Awards and explore a vibrant start-up community.

Let us know what's on your mind, and we'll do the rest:

1. **Network monetization: Generating ROI from 5G**
2. **Simplifying your architecture: Reducing cost and delivering business**
3. **Autonomous Networks: Building the network of the future**
4. **Adopting AI at scale: The benefits and pitfalls**
5. **Building a techco: Skills, structure, and governance requirements**
6. **Bringing together the IT and network functions to drive transformation**
7. **Growth beyond traditional telco: IoT services and digital marketplaces**

Save time and money with our free concierge service

We'll arrange one-to-one meetings that fit your schedule, with leading communication solution providers that you want to meet.

Attend several networking receptions and discover how your peers are addressing the latest technology developments and learn about the most current industry innovations via one-to one meetings.

Get exclusive access to content

Learn from industry leaders and experts to keep you at the cutting edge of the latest developments on AI, cloud native software, future networks, and more.
