

	Keynotes and leadership live	Composable IT and Ecosystems Summit	Autonomous Networks Summit	AI and Data Summit	Industry insights
9:00 – 10:30	Opening keynote address: The Future. Faster.				
10:30 – 11:00	Networking break: Connect and Catalysts				
11:00 – 12:00	Why complexity is killing speed and how AI rewires telcos for fast, adaptive execution	The reinvention imperative: IT at warp speed	Autonomy unleashed: Scaling Level 4 networks and achieving the Dark NOC	Responsible AI in action – governance that scales	Elevating CX: Personalization, design, and digital trust at scale
12:00 – 12:15	Networking break: Connect and Catalysts				
12:15 – 13:15	The autonomous service provider: Why sovereignty, intelligence, security, governance and intent must be engineered from day one	Race to reinvention: Speed, smarts and savings unlocked	Network-as-a-platform: Monetization secrets revealed	MODaaS, tokenomics and agentic AI: Engineering AI-native operations at scale	B2B2X and beyond – turning ecosystems into revenue engines
13:15 – 14:15	Networking lunch: Connect and explore				
14:15 – 15:15	Why AI fails to scale – engineering for production from day one	From boardroom to code: Making strategy real	Culture shock – building the workforce for autonomous operations	Build AI security – secure AI – AI cyber resiliency in the agentic era	Accelerating ecosystem innovation into scalable growth
15:15 – 15:45	Networking break: Connect and Catalysts				
15:45 – 16:45	Who makes the decisions now? Agentic AI and the future of control	Beyond connectivity – partnerships that pay	Robotics at scale – when autonomous networks meet the physical world	AI-native telcos: From lab dreams to market reality	Industry remix: Quantum networking – preparing for the post-classical era
16:45 – 17:00	Networking break: Connect and Catalysts				

	Keynotes and leadership live	Composable IT and Ecosystems Summit	Autonomous Networks Summit	AI and Data Summit	Industry insights
9:00 – 10:30	Opening keynotes: Composable IT in action – from architecture to advantage				
10:30 – 11:00	Networking break: Connect and Catalysts				
11:00	When networks run themselves: The new operating reality	Composable IT in action — ODA deployments that deliver	Autonomy in practice — level 4 solutions that scale	AI agents driving profit — case studies that count	Non terrestrial networks — the next frontier of connectivity
12:00 – 12:15	Networking break: Connect and Catalysts				
12:15 – 13:15	Data is the constraint — why leadership, not algorithms, determine AI success	Winning the speed vs cost trade-off: Boardroom decisions that matter	Closed loops and intent — clinics for real autonomy	A2A & MCP security — engineering trust, identity, and interoperability for agentic AI	Private networks — turning enterprise demand into growth
13:15 – 14:15	Networking lunch: Connect and explore				
14:30 – 15:30	From standards to software — why developers decide the speed of innovation	Talent for transformation — building the workforce that delivers	Benchmarking autonomy — KPIs that drive ROI	Data products at scale — the blueprint for AI-native telcos	Cyber resilience by design — zero trust and AI-driven defence
15:15 – 15:45	Networking break: Connect and Catalysts				
15:45 – 16:45	Who owns the models? Control, scale, and power in the AI platform era	IT Global Architecture Forum: Moonshots for IT – architecture beyond today’s limits	Integration mastery — making cross-domain autonomy work	AI infrastructure and sovereignty — build, buy, or federate?	Industry showcase: Fraud prevention — designing intelligence into the core
16:45 – 17:00	Networking break: Connect and Catalysts				

	Keynotes and leadership live	Composable IT and Ecosystems Summit	Autonomous Networks Summit	AI and Data Summit	Industry insights
9:00 – 10:30		Composable IT masterclass: Blueprints for success	Autonomous Networks Global Architecture Forum: Architecting autonomy	AI masterclass: AI for leadership	
10:30 – 11:00	Networking break: Connect and Catalysts				
11:00 – 12:30		Certification clinics — fast tracking talent readiness	Autonomous Networks masterclass: Turning deployment into ROI	AI masterclass: Who owns the intelligence? Control, trust, and power in AI-native telcos	ODA masterclass: Reinvent IT: The future of ODA
13:00–14:00	Catalyst and Innovation awards				

Join telco leaders on 23–25 June to accelerate innovation and drive real change
